

Team/Instructor scrum #5

Team member & project (re)introductions

Name of Team: Master Calculator

Team Member: Philip Anyuon

The responsibility remains the same:

1. Development of an application and planned to achieve the Minimum Viable Product (MVP) before the end of the project.
2. Gathering documents in support for the project.
3. Updating wiki and GitHub up to date.
4. Preparing for presentation and Vlog.

The solo team is working on app, which is the Master Calculator. This master calculator will provide a better interface with more clarity. It will be friendly and simple. A user may navigate from simple calculator to complex calculator on the same screen. You can add more calculation options without interference with the previous design. Formulas are provided to help user associate the problem with the process during the calculation. Addition screen will be added to show a definition of the important terminologies. This simple calculator will a better option to those complex calculators outside there.
